

Remember
what it was like?

You downloaded Steltman Software and the world changed.
For thirty days life was easy. An entire month.

Land Desktop was a breeze. Productivity shot up. Jobs took you half the time.
The client was ecstatic.

It was as if someone with real-world experience actually knew what you needed.
Intuitive software that was practical and easy to use. Tools that got the job done.
Software to fit the mind of a professional. You do remember, don't you?

What you forgot, was to renew.

No sweat, it's not too late. **Buy Site Tools now**, and Steltman Software will give you
Pipe Tools for free. Pipe Tools, the newest tool set in the Steltman family reads the
pipeworks database and will:

- draw your pipe network in 3d
- update rim elevation from CL or a surface
- generate a pipe depth report with depths calculated along the pipe.

But hurry. Like everything else in life, this offer won't last forever.

Ah, those
were the days.

Engineering downloaded Steltman Software and the living was easy.

Efficiency spiked. Jobs got done in half the time. Land Desktop was a piece of cake. Thirty glorious days when people smiled; even stopped by your office to say hello. And clients? They loved you.

It was one entire month of software that's so focused, it almost seems intuitive. Practical, easy to use, and built with professionals in mind. Real-world applications, designed with real-world experience; and packed full of tools to get the job done, fast.

It felt great didn't it?

So, why didn't you renew?

Don't panic. **Buy Site Tools now**, and Steltman Software will give you **Pipe Tools for free**. Pipe Tools, the newest tool set in the Steltman family reads the pipeworks database and will:

- draw your pipe network in 3d
- update rim elevation from CL or a surface
- generate a pipe depth report with depths calculated along the pipe.

But hurry. Like everything else in life, this offer won't last forever.
